SUMMARY

Aspiring Software Engineer and Web Designer with practical experience in building responsive, user-friendly websites and object-oriented desktop applications. Skilled in HTML, CSS, JavaScript, and C#, with a strong understanding of UI/UX principles and programming logic. Currently pursuing a Bachelor's degree in Software Engineering and eager to contribute to innovative projects

---

EDUCATION

Bachelors of Software Engineering   **Sep 2024 - Future**

Bahria University Karchi Campus
- Relevant Coursework: Computer Programming, Software Development, Object-Oriented Concepts

ACCP 2.0   **August 2023 - Sept 2024**

Aptech Learning, Shahrah-e-Faisal Center
- Covered: Frontend Development, Web Design, Project-based Learning

Intermediate in Computer Science   **August 2022 - June 2024**

BAMM P.E.C.H.S. Govt. College For Women
- Studied: Computer Science, Logic Building, Programming Fundamentals

---

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap 5, Responsive Design
Backend: C#, Java, Object-Oriented Programming
Database: MySQL
Web Design: UI/UX
Tools: VS Code, VS 2022, Figma, Canva

EXPERIENCE

GYM.
- Responsive Web Design
- Designed and developed a fully responsive gym website with a built-in workout progress tracker, allowing users to input routines and track their fitness journey.
- Live Link: https://gymnastic.netlify.app

The Vampire Epidemic - The City Crisis
- C# Desktop Game
- Built a choice-based interactive story game where decisions affect the storyline. Incorporated conditional logic and user inputs with clean modular code using OOP principles.

Decode and Discover
- Programming Quiz Game
- Created a multiple-path quiz application in C# that tests programming knowledge, supports language selection, and delivers humorous, meme-style feedback based on answers. Demonstrated use of inheritance, encapsulation, and control structures.
